FOR ORGANIZERS, FINANCE TEAMS AND PLATFORM ADMINS

Who does what, and where.

9 roles
71
permissions

Every admin page, the role that can use it and the address you reach it at. A book to look things up in, not one to read cover to cover.

STAFF ONLY · BACKSTAGE PASS

The EventFlow Admin Reference

Updated 10 November 2026 Tables generated from the code

CONTENTS

What's inside

01	The nine roles	Who sits where, and what each one is for
02	Every admin page	Grouped by who uses it
03	Who can do what	The permission grid
04	Walkthroughs	Four jobs, step by step
A1	All 71 permissions	Straight from permissions.ts
A2	Settings for a live server	The environment variables

9 ROLES

71 PERMISSIONS

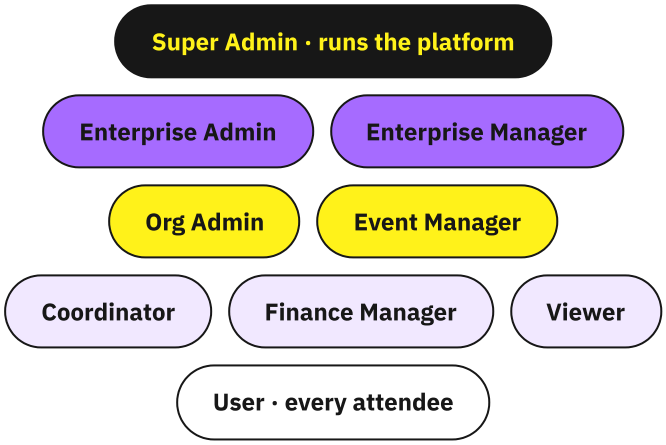

60+ ADMIN PAGES

The permission tables in chapter 03 and appendix A1 are generated from `src/lib/permissions.ts` each time this PDF is built, so they match the code.

CHAPTER ONE · ROLES

Nine roles, one ladder.

Your role is worked out per place. You can be an Event Manager in one organization and a Viewer in another.

Super Admin	Runs the platform. Sees every enterprise, organization, user, payment and audit entry. The only role that can open `/super-admin`.
Enterprise Admin	Owns an enterprise, such as a whole university. Creates and removes its organizations, handles billing, sees analytics across them.
Enterprise Manager	Like the Enterprise Admin, but can't touch billing or delete the enterprise. Can view payments, not refund them.
Org Admin	Full control of one organization: events, members, payments and refunds, coupons, certificates, the public website.
Event Manager	Creates and runs events, edits the registration form, approves registrations, sends messages and works the door. No payments, no members.
Coordinator	Event-day help. Checks people in and sees who's registered. Read-only everywhere else.
Finance Manager	Payments, refunds, payment exports and reports, coupons and analytics. Can see events and registrations but can't change them.

Viewer	Sees events, registrations, payments, check-ins and basic analytics. Changes nothing. Good for auditors.
User	Every attendee. Gets `/dashboard` and the public site, and no admin pages.

CHAPTER TWO · ADMIN PAGES

Every page, and who uses it.

Organization, enterprise and platform, in that order.

02

Organization admin

`/admin/org`	Home: counters, recent activity, upcoming events.
`/admin/org/events`	All events. Each row's menu: View details, Edit, Publish, Registrations, Check-in, Duplicate, plus Cancel or Resubmit for approval.
`/admin/org/events/create`	The six-step event wizard. `/admin/org/events/[id]/edit` opens the same wizard on an existing event.
`/admin/org/events/[id]/registrations`	Search, filter by status (including held and waitlisted), approve or reject, add someone by hand, export CSV.
`/admin/org/events/[id]/check-in`	QR scanner, manual search, live counts and undo. `/admin/org/check-in` picks the event first.
`/admin/org/events/[id]/analytics`	Numbers for one event.
`/admin/org/registrations`	Registrations across every event in the organization.
`/admin/org/payments`	Every payment. **Refund** on a row, **Refund all** for a cancelled event, CSV export. Also `/payouts` and `/reports`.
`/admin/org/members`	Invite, change roles, remove. An invite to an existing user takes effect at once. A new email joins when it's verified.
`/admin/org/communications`	Emails, drafts, announcements.
`/admin/org/certificates`	Templates and issuing certificates after an event.

`/admin/org/coupons`	Discount codes: percent or fixed, usage limits, dates, which events.
`/admin/org/analytics`	Reports for the whole organization.
`/admin/org/audit-logs`	Every change: who, what, when, from where.
`/admin/org/website`	The public site. Also `/editor`, `/templates`, `/content`, `/modules`, `/media` and `/preview`.
`/admin/org/billing`	The organization's plan and invoices.
`/admin/org/settings`	Name, branding, payment settings. `/settings/developers` holds API keys and webhooks for `/api/v1`.

Enterprise admin

`/admin/enterprise`	Home across all organizations.
`/admin/enterprise/organizations`	Create, edit and deactivate organizations.
`/admin/enterprise/events`	Every event in the enterprise. With **Require event approval** switched on, approve or reject here, one at a time or in bulk.
`/admin/enterprise/registrations`	Registrations across the enterprise, with CSV export.
`/admin/enterprise/payments`	Payments and revenue across organizations, with CSV export.
`/admin/enterprise/members`	Enterprise-level admins and managers.
`/admin/enterprise/analytics`	Reports across the enterprise.
`/admin/enterprise/audit-logs`	The enterprise audit trail, with CSV export.
`/admin/enterprise/branding`	Logo and colours.
`/admin/enterprise/billing`	Plan and invoices. Enterprise Admin only.
`/admin/enterprise/settings`	Defaults, domain, ownership transfer.

Platform (Super Admin)

`/super-admin`	Platform numbers.
`/super-admin/enterprises`	Verify, deactivate, delete, transfer ownership.
`/super-admin/organizations`	Every organization.
`/super-admin/events`	Every event.
`/super-admin/users`	Ban or unban, change role.

`/super-admin/subscriptions`	Plans and who's on them.
`/super-admin/analytics`	Platform-wide numbers.
`/super-admin/audit`	The platform audit trail.
`/super-admin/messages`	The contact-form inbox.
`/super-admin/settings`	Platform settings, maintenance mode, requiring 2FA for admins, and a test-email button.

CHAPTER THREE · PERMISSIONS

Who can do what.

A filled dot means the role can. Generated from the code, so it's current.

CHAPTER FOUR · WALKTHROUGHS

Four jobs, step by step.

The roles that actually spend their day in the admin area.

04

ORG ADMIN

Run an event from start to finish

1. `/admin/org/events`, then **Create Event**. Go through the six steps.
2. On the last step, **Preview** opens the public page with a "Preview mode" bar. Check it, then publish. If your enterprise approves events first, it waits as **Pending approval**.
3. `/admin/org/coupons`: add an early-bird code for this event.
4. `/admin/org/communications`: email the link to your members or a list.
5. Registrations appear under the event as they come in. Approve them in bulk if the event needs approval.
6. On the day, open check-in on a phone and scan.
7. Afterwards, issue certificates from `/admin/org/certificates` and look at the event's analytics.

FINANCE MANAGER Give a refund

1. `/admin/org/payments`: search by payment number or email.
2. Press **Refund** on the row. A "Refund PAY-..." box opens.
3. Leave the full amount or enter less, add a reason, confirm.
4. Razorpay payments are refunded through Razorpay. Cash payments are just recorded. A **full** refund also cancels the registration and gives back the seat and the coupon use. Everything is logged.

> **CANCELLED AN EVENT?**
>
> Use **Refund all** on the payments page. It refunds every payment for that event in one go.

COORDINATOR Work the door

1. Open `/admin/org/events/[id]/check-in` on a phone and allow the camera.
2. Scan each QR. A green confirmation appears and the count goes up.
3. QR won't read? Search by name, email or registration number and check the person in by hand.
4. Checked in the wrong person? Undo it from the same screen.

SUPER ADMIN Deal with a reported user

1. `/super-admin/users`: search by email and open the user.
2. Look at their role, organizations, registrations and payments.
3. If needed, **Ban** them (reversible with Unban) or change their role.
4. `/super-admin/audit`: filter by that user to see what they did.

APPENDIX · PERMISSIONS

All 71, by group.

Every constant in `src/lib/permissions.ts` and the roles that hold it. Super Admin holds all of them.

Enterprise

`enterprise:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Finance, Viewer
`enterprise:edit`	Ent Admin, Ent Manager
`enterprise:delete`	Ent Admin
`enterprise:manage_billing`	Ent Admin
`enterprise:manage_settings`	Ent Admin, Ent Manager
`enterprise:view_analytics`	Ent Admin, Ent Manager, Finance, Viewer
`enterprise:export_data`	Ent Admin, Ent Manager

Organization

`org:create`	Ent Admin, Ent Manager
`org:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Finance, Viewer
`org:edit`	Ent Admin, Ent Manager, Org Admin
`org:delete`	Ent Admin, Ent Manager
`org:manage_settings`	Ent Admin, Ent Manager, Org Admin
`org:view_analytics`	Ent Admin, Ent Manager, Org Admin, Finance, Viewer

Members

`member:view`	Ent Admin, Ent Manager, Org Admin, Viewer
`member:invite`	Ent Admin, Ent Manager, Org Admin

`member:remove`	Ent Admin, Ent Manager, Org Admin
`member:change_role`	Ent Admin, Org Admin

Events

`event:create`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Finance, Viewer
`event:edit`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:delete`	Ent Admin, Ent Manager, Org Admin
`event:publish`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:cancel`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:duplicate`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:manage_sessions`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:manage_sponsors`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:manage_faqs`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:manage_form`	Ent Admin, Ent Manager, Org Admin, Event Manager
`event:view_analytics`	Ent Admin, Ent Manager, Org Admin, Event Manager, Finance, Viewer
`event:export_data`	Ent Admin, Ent Manager, Org Admin, Event Manager

Registrations

`registration:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Finance, Viewer
`registration:manage`	Ent Admin, Ent Manager, Org Admin, Event Manager
`registration:approve`	Ent Admin, Ent Manager, Org Admin, Event Manager
`registration:reject`	Ent Admin, Ent Manager, Org Admin, Event Manager
`registration:cancel`	Ent Admin, Ent Manager, Org Admin
`registration:export`	Ent Admin, Ent Manager, Org Admin, Event Manager
`registration:import`	Ent Admin, Ent Manager, Org Admin
`registration:add_manual`	Ent Admin, Ent Manager, Org Admin, Event Manager

Payments

`payment:view`	Ent Admin, Ent Manager, Org Admin, Finance, Viewer
`payment:manage`	Ent Admin, Org Admin, Finance
`payment:refund`	Ent Admin, Org Admin, Finance
`payment:export`	Ent Admin, Org Admin, Finance
`payment:view_reports`	Ent Admin, Ent Manager, Org Admin, Finance

Check-in

`checkin:perform`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator
`checkin:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Viewer
`checkin:manage`	Ent Admin, Ent Manager, Org Admin
`checkin:undo`	Ent Admin, Ent Manager, Org Admin

Communication

`communication:send_email`	Ent Admin, Ent Manager, Org Admin, Event Manager
`communication:send_sms`	Ent Admin, Ent Manager, Org Admin
`communication:send_announcement`	Ent Admin, Ent Manager, Org Admin, Event Manager
`communication:view_history`	Ent Admin, Ent Manager, Org Admin, Event Manager

Certificates

`certificate:create_template`	Ent Admin, Ent Manager, Org Admin
`certificate:generate`	Ent Admin, Ent Manager, Org Admin
`certificate:view`	Ent Admin, Ent Manager, Org Admin, Event Manager
`certificate:manage`	Ent Admin, Ent Manager, Org Admin

Coupons

`coupon:create`	Ent Admin, Ent Manager, Org Admin, Event Manager, Finance
`coupon:view`	Ent Admin, Ent Manager, Org Admin, Event Manager, Finance
`coupon:edit`	Ent Admin, Ent Manager, Org Admin, Event Manager, Finance

`coupon:delete`	Ent Admin, Ent Manager, Org Admin

Analytics

`analytics:view_basic`	Ent Admin, Ent Manager, Org Admin, Event Manager, Coordinator, Finance, Viewer
`analytics:view_advanced`	Ent Admin, Ent Manager, Org Admin, Finance
`analytics:export`	Ent Admin, Org Admin, Finance

Audit

`audit:view`	Ent Admin, Ent Manager, Org Admin
`audit:export`	Ent Admin, Org Admin

Platform

`platform:manage_users`	Super Admin only
`platform:manage_enterprises`	Super Admin only
`platform:manage_subscriptions`	Super Admin only
`platform:view_all_analytics`	Super Admin only
`platform:manage_settings`	Super Admin only
`platform:manage_content`	Super Admin only
`platform:impersonate`	Super Admin only

APPENDIX · LIVE SERVER

Settings for a live server.

The environment variables. Full setup steps are in DEPLOY.md and ZOHO-DEPLOY.md.

Required

`DATABASE_URL`	The PostgreSQL connection string.
`NEXTAUTH_SECRET`	32+ random characters. Signs sign-in sessions.
`NEXTAUTH_URL`, `NEXT_PUBLIC_APP_URL`	The site's public address. The second one is built into the app, so rebuild after changing it.
`TICKET_SECRET`	32+ random characters. Signs every ticket QR. Never change it after launch, or every existing ticket stops scanning.
`CRON_SECRET`	Protects the timed jobs (releasing unpaid seats every 5 minutes, hourly reminders).
`EMAIL_FROM`	Sender address. In production the app won't send mail without it.

Email, payments, files

`RESEND_API_KEY` or `SMTP_HOST` / `SMTP_PORT` / `SMTP_USER` / `SMTP_PASS`	Where email goes out. Resend first, SMTP (for example Zoho ZeptoMail) otherwise.
`RAZORPAY_KEY_ID` / `RAZORPAY_KEY_SECRET` / `RAZORPAY_WEBHOOK_SECRET`	Razorpay. Start with test keys.
`S3_BUCKET` / `S3_REGION` / `S3_ENDPOINT` / `S3_ACCESS_KEY_ID` / `S3_SECRET_ACCESS_KEY`	Uploads in a bucket (S3, Cloudflare R2). Without these, uploads go to `UPLOAD_DIR` on disk.

Optional

`GOOGLE_CLIENT_ID` / `_SECRET`, `MICROSOFT_CLIENT_ID` / `_SECRET`	Sign in with Google or Microsoft.

`NEXT_PUBLIC_ROOT_DOMAIN`	Base domain for organization subdomains.
`NEXT_PUBLIC_SUPPORT_EMAIL`, `NEXT_PUBLIC_PRIVACY_EMAIL`, `NEXT_PUBLIC_GRIEVANCE_OFFICER`, `NEXT_PUBLIC_LEGAL_ENTITY`, `NEXT_PUBLIC_LEGAL_JURISDICTION`	Shown on the legal pages. Built into the app.
`SENTRY_DSN`, `ALERT_WEBHOOK_URL`	Error alerts.
`MAINTENANCE_MODE`, `MAINTENANCE_MESSAGE`	Put the site into maintenance.
`CUSTOM_DOMAIN_CNAME_TARGET`, `CUSTOM_DOMAIN_IPS`	For organizations using their own domain.
`WEATHER_API_KEY`	The weather module.
`REDIS_URL`	Shared rate limiting when you run more than one copy of the app.

That's the Admin Reference. The attendee side is in the **EventFlow User Guide**.
